

KEEP HIM FROM GOING 'ROUND.
Philadelphia Times—The crank may have a wheel in his head, but the thing is to put a spoke in it before he does any harm.

IT MIGHT DO IT A GOOD TURN.
Baltimore Herald—It begins to look as though the Ferris wheel might be needed in Honolulu to bring about the longed for revolution in political affairs.

DOING THE BEST IT CAN.
Chicago Lake Ocean—A Democratic organ cheerfully remarks: "The election is over and Democracy is looking up. It is flat on its back."

HE CAN BE COUNTERED EVEN.
Kansas City Star—One of the "penceful workmen" whom Algeed paraded out of the penitentiary has turned up as a train robber. But the main facts of the case are not altered; he is still Algeed.

THEY WERE FALSE PROPHECIES.
Indianapolis Journal—Fifteen years ago the papers in New York which are applauding the triumph of our latest American built cruiser were declaring that it would be impossible to build a first class warship in this country.

WE HOPE NOT.
Milwaukee Times—The report comes from Kansas that Mrs. Mary Leno may desert the Populists and join the Republicans on account of the results of the recent election. In that event general sympathy will be with the Republicans.

THEIR INDIANANCE OUTRIPPED BLISS.
Chicago Times—People in this country are a great deal more excited over the outcome of the Hawaiian affair than the natives of the Sandwich Islands themselves. But then the natives, poor souls, don't know what a political good thing they are.

THE ART CALIFORNIAN.
Harvard Letter-Butler—There's a man bound to see you, sir.
Myberry—What did you tell me?
Butler—I told him to tell me if it was a lady to say you were in, and if it was a lady to say you were out.
Myberry—What did he say then?
Butler—He said to tell you he was a lady.

A RABBIT LIFE.
Texas Sifter—"I understand that you are the original Cleveland man."
"Yes, I am the man."
"Has he done anything for you."
"He hasn't. The heart of that ungrateful man is like the desert, which absorbs the rain and produces nothing."
"Produces nothing? I don't think you read the papers. How about the panic?"

AMERICAN LOCOMOTIVES.
Herald—The American locomotive is finding its way into every corner of the globe. Chili has now given an order for twelve at a cost of \$160,000. During the past two years we have sent 355 to South America and seventy-five to Australia. Brazil, it would seem, has the headlight used on its locomotives in this country. The American in fact has a great reputation for manufacture of fine machinery.

The recent meeting in the Baptist Church at Danville resulted in twenty-two additions to the church.

That time-honored preparation, Ayer's Cherry Pectoral, is still the medicine most in demand for colds and coughs. It always cures.

The temperance wheels began moving in Webster county and the friction was so great it caused a "hot-box," and now a distillery is in ruins.

Yes, we know we have the largest stock of Holiday Goods, but we know how to sell them. Why mark them down for cash.

Railroad tickets to any point at the lowest possible rates. Bussard checked through to destination. If you are going to travel call upon or write to W. W. Whitely, Agent C. and O., Mayville, Ky.

The boys of the Intermediate Department of the High School kindly remembered their teacher, Professor Hayes Thomas, with some of the choicest selections and cigars the market affords. Mr. Thomas was "too full for utterance," and could find no words to express his good feelings—we mean too full of the hopes of a quiet place to enjoy the good things.

There will be at the Opera-house next Tuesday evening one of the very best attractions that is on the road this season, and one that would do well to go and see it. Alha Heywood, in the protean comedy, "Edgewood Falls," will be assisted by the celebrated "Edgewood Quartette," and all those who like something good had better attend. Prices, 25, 50, 75 and 100 cents.

"In buying a good medicine for children," says S. A. Walker, a prominent druggist of Ogden, Utah, "one should be careful to buy Chamberlain's Cough Remedy. There is no danger from it and relief is sure to follow. I particularly recommend Chamberlain's Cough Remedy because I have found it to be safe and reliable. It is intended especially for colds, croup and whooping-cough. I have sent bottles for sale by John J. Herricks, Druggist."

FARER bulk oysters at Martin Bros.

Dr. J. T. EYKHOE was out yesterday, after a four days' wrestle with the grip.

LAST night an eleven pound boy arrived at the home of Charles D. Shepard.

On account of the illness of the Pastor, Rev. T. W. Watts, there will be no preaching at the M. E. Church, South, to-morrow.

WONDER if the Express Messenger succeeded in catching the K. C. train this morning? He should have started "Bleeker" after it, he's built for running.

ALTHOUGH an extra number of Limestone was printed yesterday, the extra edition was exhausted long before dark—and there were urgent orders for more.

THE books of the Limestone Building Association are now open for subscription to the Ninth Series of stock. Call on H. C. Sharp, Secretary; James Threlkeld, Treasurer; C. D. Newell, Solicitor, or any of the Directors.

DON'T miss the opportunity to have a free pass at the wonderful box, given by the First Clothing Parlor. We offer big bargains in Suits and Overcoats. You will have a guess to every purchase. No. 123 Market street.

LOWER than ever. To reduce a very large stock of watches I have made a great reduction in price on ladies' and gents' solid gold, gold filled and silver watches. I have a very large stock of silver watches for boys and girls. Prices very low. P. J. Murphy, Successor to Hopper & Murphy.

THE T. and O. Company will return for the use of dynamite on the C. & O. for the lighting of the train. For sometime they have been using a storage system but this is not proving satisfactory as the storage capacity is not sufficient for the long run made. The dynamite will be put on the train again next week.

ON THE K. C.
Dastardly Attempt to Wreck the Incoming Train Last Night.

The train on the Kentucky Central, due here at 9 o'clock last night, made a narrow escape.

At a point between Norton and Bruce's the engineer spotted a lot of obstructions on the track.

He stopped the train promptly, and it required some time for the trainmen to remove the crosses, telegraph poles, etc., which had been placed on the track by miscreants.

No damage. As due to the perpetrators of the foolish act.

Wanted
at this office, a young man who has some knowledge of accounts. Apply on call.

GLETHANKS
At the Fair-Grounds With a Big Hunter Fight.

There was noticeably commotion among the sporting element Thanksgiving night.

There was something out of the ordinary on the string, and it was "pulled" for all it was worth.

One of the "sports" happened to take on a large dog, "Spunk," and his tongue was waved accordingly.

He it was who gave the "mill" away.

But very near everybody in the town had heard about except the proper officers of the law.

At 10 o'clock Thanksgiving night the "sports" could be seen in their saddest way, as, making their way toward the fair-grounds, where the fight was to come off.

They went right in the Floral Hall, and how they got in unless they broke the door or it was merely open by "accident" we don't know, but they got in.

From a way wagon and backs were run we judge there was a large crowd of some from Carlisle, Cincinnati, Covington, Cincinnati and this city.

The "arena" began at 10 o'clock sharp and ended at 10 o'clock yesterday morning.

All this going on left in the midst of a lawlessness, and the proper authorities never heard of it.

But let a man get a "package" under his belt and see how quick the officers will know it.

This class of citizens are undoubtedly an "honor" to any community!

It is a sad condition of such a disgraceful proceeding being allowed to take place in our country!

Those who have the power to arrest such offenders ought to go and see what kind a hole they can make in the river.

Such proceedings are outrageous, and should not be allowed under the sun.

It's bad enough to have men fight for money, but when they fight in the dumb brutes and the fowls the law should be enforced.

It's a good thing they were unable to get the names, or they would have appeared in this article.

It is not too late for the law to take action in this matter and try and break up such disgraceful proceedings in our quiet midst.

It will be many years before they will repeat such conduct.

We have heard old gray-haired men talk who used to do the same thing when they were young, and all regret that they have not their lives to live over—how different they would be spent.

These men should be ashamed of themselves, and quit such outrageous behavior.

But then the law should make them better.

The best advertisement is the one that appeals to the eye—is conspicuous.

The business man that cannot use printing has nothing to sell.

An intelligent use of printing pertaining to a business is as necessary to draw trade as the salesman behind the counter is to sell the goods.

An investigation of the methods of the largest and shrewdest of National and local business men will convince anyone that printing needs no champion.
